

## Ontario Reptile and Amphibian Atlas Card

Submit observations online at [www.ontarionature.org/atlas](http://www.ontarionature.org/atlas) or mail completed cards to Ontario Nature, 366 Adelaide Street West, Suite 201, Toronto ON M5V 1R9. A more detailed description of each field below is available on by viewing our online reporting form or Excel reporting form, which are available on our webpage.

### Required Information (Please be sure to complete this section):

Name of primary observer: \_\_\_\_\_ E-mail \_\_\_\_\_ Phone: \_\_\_\_\_  
Names of other observers: \_\_\_\_\_  
Species Name: \_\_\_\_\_ Observation Date: \_\_\_\_\_ Observation Time (if known): \_\_\_\_\_ AM / PM  
Picture: Yes / No Taped call: Yes / No Search Type: Intentional / Incidental  
Total number of individuals of this species observed (note, for rare species, please fill out an individual report with a UTM for each individual observed): \_\_\_\_\_

Location Description: (Please describe the location, including directions to the site, any roads or trails that were taken and relevant landmarks)

List the detailed identification features that can be used to confirm your identification (example: small frog; 2 cm long; toe disks; distinct x pattern on back)

### Additional Information (optional):

Please provide coordinates whenever possible. Although this is optional, providing observations with coordinates are much easier to include in the atlas maps.

Easting UTM: \_\_\_\_\_ Zone: \_\_\_\_\_ (e.g. 18T in Eastern ON) OR Latitude: \_\_\_\_\_

Northing UTM: \_\_\_\_\_ Longitude: \_\_\_\_\_

Datum: NAD 83 / NAD 27 / WGS 84 (circle one) UTM or Lat/Long Accuracy: \_\_\_\_\_ metres

Weather: Heavy Rain / Light Rain / Overcast / Partly Cloudy / Sunny Land Ownership: Private / Crown / National Park / Prov Park / Municipal / Unknown

Behaviour: Basking / Foraging / Under cover / Swimming / Alive on Road / Dead on Road / Unknown Temperature: \_\_\_\_\_ °C County: \_\_\_\_\_

Habitat (forest, wetlands, etc):

Demographic notes: (e.g. age, sex, condition, reproductive status, colour morph)
